

WISER Summer 2010

WISER Summer 2010 is the first WISER-U* global event that will put together change makers in education, research and innovation and university students from all over the world. The most bright brains will meet and share the creative ideas on the next-generation methodology and technology which will reform the future of education and research.

Who will enjoy Wiser Summer 2010?

If:

- you are a university student;
- you believe that you have some ideas to share or projects to construct that may have significant impact on science, education and research;
- you are eager to meet and share your creativity with like-minded brilliant brains from all over the world;
- you are convinced that by sharing ideas and efforts with others you can achieve much more than do everything alone;
- you believe that the great potential of new technologies will be a leading force to change the world into a nicer place and you are also willing to build a bridge between these techs and everyday requirements in science, education and research;

then YES! You should not miss the opportunity to participate Wiser Summer 2010!

What are we going to do in Wiser Summer 2010?

There will be three major sessions in Wiser Summer 2010: Coopetition, TEDxWiserU and Creative Camp:

Coopetition (Aug. 19th & 20th)

Students will make teams and create projects related to novel ideas or methodologies for science and education before coming to Wiser Summer 2010 (Cooperation). And in the first two days of the summer event, all teams will meet at Peking University to present their projects, ideas and dreams and compete for “**the wisest of the wisers**” prize (Competition).

Some of the winners of WISER Summer coopetition will be invited to present their visions during the second session: **TEDxWiserU**.

TEDxWiserU (Aug. 21st)

TEDxWiserU is an international conference licensed by [TED](#) and organized by WISER-U.

Invited speakers from diverse background will present their views on the challenges and chances of science and education in the 21st century.

How to incubate & realize interdisciplinary creative ideas? How information technologies will reform the methodology of research and learning? How to spread good education resources in less-developed area by using new technologies and new pedagogy, leading to a sustainable development of economics and society? World-class experts and change makers will come to PKU this summer and share their experiences and views on promoting progress towards science2.0 and education2.0.

Out-of-Box brainstorming: (Aug. 22nd)

As we are all constrained by our own history, culture, society and environment, it is hard to imagine another educational system without understanding all these factors. We will spend this day brainstorming any kind of new learning and exploring methods out of the box of our daily experiences and constraints.

Creative Camp: (Aug. 23rd & 24th)

WISER-U Creativity Camp is a workshop for sharing and accumulating creativity among the change makers from all over the world. Participant from different places with diverse background will meet and brainstorm in [SciFoo](#) style.

There is neither predetermined subjects nor predetermined schedule. Participants introduce any interesting subjects related to creative ideas in science, education and research, and exchange their thinking by brainstorming or any interactive methods they prefer.

Where to participate Wiser Summer 2010?

Wiser Summer 2010 will take place in the lovely and peaceful campus of Peking University, located in Beijing, the capital of China.

Peking University is the leading Chinese University hosting nice interdisciplinary programs and research facilities. It a leading force in promoting creativity in science, education and research in China.

How to participate Wiser Summer 2010?

Just 4 simple steps to get involved the fascinating Wiser Summer 2010!

- 1) Visit the website <http://wiser-u.net/summer> to find out all the details of Wiser Summer 2010;
- 2) Join the WISER-U community by registering on our wiser-u community at: <http://wiser-u.net/elgg> and
- 3) build your team and **register** on <http://wiser-u.net/summer/how/> **before the 15th of May**.
- 4) ****and start to work on your creative project for the coming Wiser Summer 2010!**

*WISER-U (**World-Wide Interaction for Science Education and Research**) is a non-profit international association created one year ago by students and scientists who are passionate to share ideas and develop projects for the future of Science, Education and Research. We are dedicated to design and develop new technologies to create a global platform where

students and researchers from all over the world can share their ideas and create projects together. By increasing the contacts between like-minded creative students we will catalyze exchanges, foster projects on-line and/or in real life and build networks of ideas, learners and places of creativity where projects can be turned into reality. Wiser Summer 2010 is supported by CRI (Centre de Recherches Interdisciplinaires) at Paris and Yuanpei School of Peking University.

**For any specific questions you can contact the Wiser-U community contact us in the [Social Network](#) of Wiser-U. All information and Wiser-U and Wiser Summer 2010 are available on <http://wiser-u.net> website.
